EMPLOYEE RENTAL

Employees are allowed to use most equipment at no charge, for their own personal use, after regular store hours if it does not interfere with a rental and not for making a profit from the use of the equipment. However, larger items are half price. A rental contract will be drawn up for those rentals and will be written on the board.

If equipment is damaged the employee will be responsible for repair or replacement costs. All equipment will be returned clean, full of fuel, and in working order or the employee will be charged accordingly. If the equipment is not returned on time the employee will be charged for the period the equipment is out.
